On October 16, 2009, the Company changed its name to ShaMaran Petroleum Corp. from Bayou Bend Petroleum Ltd. with an effective date of October 21, 2009. The Company’s shares trade on the TSX Venture Exchange under the new symbol of “SNM” (formerly “BBP”).

The Company conducts its operations through wholly owned subsidiary entities.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

These Interim Consolidated Financial Statements (unaudited) for the three and six months ended June 30, 2010 and 2009, include the accounts of the Company and its wholly owned subsidiaries and its proportionate interest in joint ventures, and have been prepared in accordance with generally accepted accounting principles in Canada.

These Interim Consolidated Financial Statements (unaudited) have been prepared under the same accounting policies as the audited financial statements of the Company for the year ended December 31, 2009. Certain disclosures that are normally required to be included in the notes to the annual audited financial statements have been condensed or excluded. These financial statements should be read in conjunction with the Company’s audited consolidated financial statements and accompanying notes for the year ended December 31, 2009.

On May 28, 2009, the Company sold to a third party substantially all of its oil and gas properties located in the United States in the Gulf of Mexico. For the three and six months ended June 30, 2010 and 2009, the financial results relating to these properties have been classified as discontinued operations. Refer to note 3.

(b) Going concern

These Interim Consolidated Financial Statements have been prepared assuming that the Company will be able to realize into the foreseeable future its assets and liabilities in the normal course of business as they come due. The ability of the Company to continue as a going concern and to successfully carry out its business plan is primarily dependent upon the continued support of its shareholders, the discovery of economically recoverable reserves, the resolution of remaining political disputes in Iraq, and the ability of the Company to obtain financing to develop reserves.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Future accounting standards

International Financial Reporting Standards

In February 2008, the Canadian Accounting Standards Board confirmed that Canadian generally accepted accounting principles (“Canadian GAAP”) will be converged with International Financial Reporting Standards (“IFRS”) for fiscal years commencing January 1, 2011. The transition from Canadian GAAP to IFRS will be applicable for the Company for the first quarter of 2011 when the Company will prepare both the current and comparative financial information using IFRS. While IFRS uses a conceptual framework similar to Canadian GAAP, there are significant differences on recognition, measurement and disclosures. While the effects of IFRS have not yet been fully determined, the Company has identified a number of key areas which are likely to be impacted by changes in accounting policy and disclosures, including the accounting for petroleum properties and taxation.

Business Combinations

The CICA recently issued Handbook Section 1582, Business Combinations, which replaces Handbook Section 1581, Business Combinations, and establishes revised standards for the recognition, measurement, presentation and disclosure of business acquisitions. This new standard will become effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011. The Company has determined that adoption of this standard will not have an impact on the Company’s financial statements.

Consolidated Financial Statements and Non-Controlling Interests

The CICA recently issued Handbook Section 1601, Consolidated Financial Statements, and Handbook Section 1602, Non-Controlling Interests. These new sections will replace Handbook Section 1600, Consolidated Financial Statements, and establishes new guidance in respect of accounting for non-controlling interests in a subsidiary and for the preparation of consolidated financial statements. These new sections apply to interim and annual consolidated financial statements for years beginning on or after January 1, 2011. The Company has determined that adoption of these sections will not have an impact on the Company’s financial statements.

The Company has an established share purchase option plan whereby a committee of the Company's board of directors may, from time to time, grant up to a total of 10% of the issued share capital to directors, officers, employees or consultants. The number of shares under option at any specific time to any one optionee shall not exceed 5% of the issued and outstanding common shares of the Company. The term of any options granted under the plan will be fixed by the Board of Directors and may not exceed five years from the date of grant. All options granted are subject to a four month hold period from the date of granting. Vesting terms are at the discretion of the Board of Directors. All issued stock options have terms of three to five years and vest over periods of up to three years. The exercise price of an option is not less than the closing price on the TSX Venture Exchange ("the Exchange") on the last trading day preceding the grant date, less the applicable discount, provided that the exercise price will not be less than Cdn \$0.10 per share.

7. SHARE CAPITAL AND CONTRIBUTED SURPLUS (continued)

(c) Share options (continued)

The incentive stock options issued and outstanding are as follows:

Expiry date	No. of options outstanding at June 30, 2010	Exercise price (Cdn \$)
April 24, 2011	1,235,000	0.48
January 18, 2011	300,000	1.20
March 27, 2012	150,000	2.15
September 10, 2014	1,375,000	0.67
September 30, 2014	710,000	0.64
January 3, 2015	600,000	0.47
March 25, 2015	100,000	0.60
May 11, 2015	75,000	0.43
	4,545,000	

The Company recognizes compensation expense on stock options granted to both employees and non-employees using the fair value method at the date of grant, which the Company records as an expense. The stock option compensation expense is calculated using the Black-Scholes option pricing model. The weighted average fair value of options granted and the assumptions used in their determination are as follows:

	2010	2009
Expected dividend yield	0%	0%
Risk-free interest rate (weighted average)	3.27%	3.32%
Expected stock price volatility (weighted average)	86.53%	95.77%
Expected option life in years (weighted average)	4.07	3.98
Grant date fair value (weighted average)	Cdn \$0.35	Cdn \$0.48

Stock option compensation expense for the three and six months ended June 30, 2010 was \$114,000 (2009: \$81,000) and \$318,000, respectively (2009: \$81,000).

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options.

10. COMMITMENTS AND CONTINGENCIES

(a) Production Sharing Contracts (“PSC”)

As described in Note 15 to the audited consolidated financial statements for the year ended December 31, 2009, the Group had a combined \$61 million minimum financial commitment relating to the PSCs governing its petroleum operations in two separate petroleum exploration and development properties, the Pulkhana Block 10 and the Arbat Block, located in the Kurdistan Region of Iraq. The PSCs also require the Group to fund certain personnel, training, environmental, and technological assistance projects, during the period over which the contracts are in effect. As at June 30, 2010, the Group had executed \$5.0 million of its minimum financial obligations through the completion of its 2D seismic acquisition program in the Pulkhana Block.

All qualifying petroleum costs incurred by the Group shall be recovered from a portion of available petroleum production, defined under the terms of the PSCs. At any time during the exploration period the Group has the right to terminate the PSCs, by surrendering the entire contract area.

Refer to note 11 for additional information.

(b) Amendment and Novation Agreement to the Block 42 Option Agreement (“K42 Option Agreement”)

As described in Note 15 to the audited consolidated financial statements for the year ended December 31, 2009, the K42 Option Agreement requires the Group to conduct certain seismic services, including the acquisition of 200 kilometers of seismic surveying, within the option period of 18 months commencing October 1, 2009, which is extendable for a further three months. The Group, together with the operator, Oil Search (Iraq) Limited, are required to pay 100% of all the costs incurred during the option period, 25% of which are to be paid by the Group.

The Group estimates its remaining minimum commitments under the K42 Option Agreement to be approximately \$0.7 million as at June 30, 2010.

All qualifying petroleum costs incurred by the Contractor during the option period would be recoverable from a portion of available petroleum production, defined under the terms of the PSC.

(c) Net Profit Interest

The Group has entered into agreements for local services whereby certain third parties are entitled to receive a net profit interest in respect of the Pulkhana Block 10 and Arbat Block PSCs.

Amendments to Pulkhana and Arbat PSCs

In August 2010, the Group executed agreements with the KRG to amend the Pulkhana Block 10 and the Arbat Block PSCs. The amendments relieve the Group of its contractual requirement to issue 150 million common shares of the Company to the KRG, which was comprised of 100 million shares now due plus a further 50 million shares due 30 days prior to the expiry of the first exploration sub-period in the Pulkhana Block, and require the Group to contribute 20% of its profit oil share from the Pulkhana Block 10 PSC and the Arbat Block PSC as capacity building payments to the Government. Refer also to note 7(b).
